## Arctic Wolf® Company Overview

### The Importance of Security Operations Solutions

Today's leading organizations need to protect themselves against the most advanced threats, but lack the internal resources to address the high costs, complexity, and additional personnel that's required to build an impactful security operations center.

### Organizations face fundamental security challenges

#### Too Much Noise

Alert fatigue, vendor fatigue, compliance and regulation fatigue — the journey never ends

#### Security Skill Shortage

Recruiting and retaining cybersecurity talent is hard, sometimes impossible

#### Cost of Response Time

The longer it takes to respond to an incident, the more expensive it is to remediate

### Arctic Wolf Security Operations

Using the cloud-native Arctic Wolf® Platform, we provide security operations as a concierge service. Highly trained Concierge Security® experts work as an extension of your team to provide 24x7 monitoring, detection, and response, as well as ongoing risk management to proactively protect systems and data while continually strengthening your security posture.

### Arctic Wolf Platform

Monitor the data 24x7 by a team of assigned security experts who learn your organization and continually optimize our solutions for maximum effectiveness in your environment

Centralize all data in our cloud-native security analytics platform for storage, enrichment, and analysis

Leverage your existing technology stack to gain broad visibility across endpoint, network, and cloud

## Arctic Wolf Solutions

Arctic Wolf solutions install in minutes and immediately begin monitoring your environment, ensuring proactive and dynamic detection and response to threats, intrusions, and attacks. Organizations receive timely and actionable intelligence—without the overwhelming noise of endless false positives.

### Prevent attacks before they occur with Arctic Wolf® Managed Risk

- ▶ Dynamic asset identification
- ▶ Continuous assessments
  - Internal vulnerability
  - External vulnerability
  - Host-based vulnerability
- ▶ Account takeover risk detection
- ▶ Security controls

### Identify and respond to attacks with Arctic Wolf® Managed Detection and Response

- ▶ 24x7 monitoring
- ▶ Network inspection
- ▶ Log aggregation, correlation, and analysis
- ▶ Threat detection
- ▶ Cloud security
- ▶ Compliance reporting
- ▶ Endpoint visibility
- ▶ Incident response

## Delivering Solutions Through Valued Partners

At Arctic Wolf, the market leader in security operations, we take great pride in working with partners to deliver personal, predictable protection from cybersecurity threats.
